

BetterTaxi is a young, fast-growing startup. We are developing a taxi app for iPhone, Android and BlackBerry which can be used to order taxis comfortably and sustainably. Apart from the usual cab ride with BetterTaxi you can share your taxi with other passengers. We launched our service in the summer of 2012 in Berlin and will expand to other german and international cities.

Employment (m/f) in Mobile Web Development from now on in Berlin

Your tasks

- Development of a smartphone application for iOS, Android and BlackBerry devices using a cross-platform frameworks and native programming in Objective-C and Java
- Project management (if desired)
